Web-based Training and Recorded Webcasts

Teradata Education Network uses cookies. Our courseware servers are a part of teradata.com and use a cookie from teradata.com. The easiest way to enable cookies is to add *.teradata.com to your trusted sites. To view instructions on the most popular browsers click [here](#).

Recorded Webcasts

Some older Recorded Webcasts are only offered in Flash and will require the latest version of Adobe Flash Player to play. Download the latest version of Flash, [here](#). More recent webcasts are in MP4 format which open in a pre-loaded HTML5 player, viewable in virtually any browser, on Mac or PC or on most modern mobile device

Teradata Lab Server

Access to Teradata Lab server requires having Port 1025 (wbtlabserver.teradata.com) open within your company's firewall. Teradata Studio Express & Teradata SQL Assistant version is available free on [Developer Exchange](#). You will be required to set up a user name and password (this is different than your Teradata Education Network login credentials).
